

# Dusty Road

[Laza Morgan](#)

I walk the line, look straight ahead  
A second chance, one slip and it's gone  
Though the bird has flown  
The sands of time stand still  
Scars that never heal  
Wounds you always feel  
Keep on walking that dusty road  
Blinded by the flame  
Keep on walking that dusty road  
Never giving in  
A single light, you hold your breath  
Your heart beats fast, a skin that burns  
Maybe the tide has turned

The goal you know is near  
And wish of a thousand nights  
Voices you always hear  
So keep on walking that dusty road  
Keep on walking that dusty road  
Blinded by the flame  
Keep on walking that dusty road  
Never giving in  
Keep on walking that dusty road  
Blinded by the flame  
Keep on walking that dusty road  
Never giving in
