

# Entwined Pines

## Islet

Merged into the wooded hills, that you have sang and wondered for  
Clipping heels, steep slopes plunge, night fell just like rain  
They can dance, they can run  
Showing their teeth to everyone who passed them by as if they didn't exist  
Funny how you dance when you're  
showing your courage, it's real  
Love forever more a reward for this glory, You'll see  
Funny how you dance when you're showing your courage, it's real  
Heather's shade of bark, focus on Autumnal  
eyes.  
Letting go and forgetting all of their ties  
They can dance, they can run  
They will spread roots in to this earth, exalted scenes playing in their mind  
Funny how you dance when you're  
showing your courage, it's real  
Love forever more a reward for this glory, You'll see  
Funny how you dance when you're showing your courage, it's real  
Love forever more a reward for this glory, You'll see
