## American Head Charge

I want to be  
Somewhere far from here  
I'm watching you  
As you wave goodbye  
I won't take  
I won't weigh you down  
Following suit  
So just count me out  
I can't get it out  
Can't put it together  
I should have known better  
Than to turn into this  
I can't believe  
I've become removed  
Tighten the line  
And pull up hello  
I will change  
I won't weigh me down

Carving this space  
Never count me out  
I can't get it out  
Can't put it together  
I should have known better  
Than to turn into this  
Fiend  
I say  
Everything's how it ought to be  
I say  
Nothing should ever change  
I say  
I only know how I used to be  
I say  
I don't want a fucking thing to do with it
