## Buscemi

Oho Gagarin

Prying the colour of your state of mind

Read out the time till you're in the zone

Oho Gagarin

Inhale your life it is a prison of joy

Oho Gagarin

You're in space now

It's invaded now

You're in lift off

And in orbit like I got

In space out

Fade in

Lift off

Orbit like I got in(Russian)Paint the ceiling with a flash of light
