Shelter

Lennox Lust

Didn't mean to take his side, but the retell was so black and white.
I don't think as hard about it now, have I made you proud.
So much I could have said, made it feel this way in my head.
There's this bleed in me, I hope it pleads me the way home.

Ive got shelter, you and me will stay where we stand.
Taking it day by day,
I got shelter, from the rain that falls, so come and hold me close and don't let go.
Don't let go

Didn't mean to put you in first, but you were always open for the worst.
And i'm still wondering what could have been.
If you could have seen.
So much I could have said, made it feel this way in my head.
There's this bleed in me, I hope it pleads me the way home

Ive got shelter , you and me will stay where we stand.
Taking it day by day, I got shelter.
From the rain that falls, so come and hold me close and don't let go
Don't let go

Ive got shelter, you and me will stay where we stand, taking it day by day.
I got shelter, from the rain that falls, so come and hold me close and know that we've got shelter.
You and me will stay where we stand. Taking it day by day
Ive got shelter, from the rain that falls.
So come and hold me close and don't let go
Don't let go
Don't let go
Don't let go
Don't let go
