Frontiers

Crosses

From the haze in your chambers
To the legs on the stage
I'm consumed by your danger
I can lose my restraint yeahI can take you even further
Oh yeah I
I'll let you enter
From the stage
We shoot our guns
Then we sail off into the sun
While the cold world freezes onThe view from the trails from the vapors
That we burn from a kiss
Heats the stars that we strangle
And it's proof we existI can take you even further
Oh yeah I
I'll let you enter
From the stage
We shoot our guns
Then we sail off into the sun
While the cold world freezes onYeah I can take you even further
Oh yeah I
I'll let you enter
From the stage
We shoot our guns
Then we sail off into the sun
While the cold world freezes on
Into the sun
Into the sun
