Maintain

Jonathan McReynolds

You see me moving all the needed people out my life
And I'm trying to get these crazy thoughts out of my mind
Yeah, You gave me all the weapons but it's still a fight
So help me maintain
Help me maintainYeah, I don't wanna live in stress or fear
Cause it's getting crazier everyday out here
All the love and peace You give to me I hold so dear
So help me maintain
Help me maintainCause soon as I walk out the door
I'll need You more and moreSee, I realise that sometimes I'm just not that smart
But I desperately just wanna be where you are
And compared to a while ago I've gotten far
So help me maintain
Help me maintainCause soon as I walk out the door
I'll need You more and more
You know what's in store
I'll need You more and moreI recognise this is the day that You have made
So I walk in love and put a smile on my face
But in case I run into someone on a different page
Help me maintain
Help me maintainAll my joy, God, help me maintain
All my peace, help me maintain
My sanity, help me maintain
My smile, Jesus, help me maintainMy life,help me maintain
My heart, Lord God, help me maintain
Every part of me, help me maintainHelp me maintain
