

Situations

Blare LeVoir

Is anyone out there, do you hear my call?
I feel so defeated not caring at all
Is anyone out there, can you feel my pain?
Tried to clear my head
I don't give a shit
Do you hear my call? For something to look for
Don't wanna feel the same
I'm tryin to break out
I just wanna be found Days will be just another
I can do whatever I want
Keep on
Bein numb
I'm not like you, I'm not that strong Getting over the same situations
Where my heart is still and I just see faces
Nothing left inside but empty ashes
No armor left to hide my broken pieces
Situations
Situations Is anyone out there, do you hear my plea
Trying to make clear, I don't wanna be here
Feelin so lonely
Is anyone out there, feeling the same
Showin all the signs
Tryin stay in line
Do you hear my call Days will be just another
I can do whatever I want
Keep on
Bein Numb
I'm not like you, I'm not that strong Getting over the same situations
Where my heart is still and I just see faces
Nothing left inside but empty ashes
No armor left to hide my broken pieces
Situations
Situations
Life doesn't wait
For you to say
What games you wanna play
It just keeps
Movin on
And When the day is done

Will you be strong ?
Will you be strong?Getting over the same situations
Where my heart is still and I just see faces
Nothing left inside but empty ashes
No armor left to hide my broken pieces
