Going the Distance

Chad Brock

I don't know exactly what this is that I'm going through
Well, I know it seems like I'm somewhere else when I'm talking to you
Well, I know what I'd be thinking if it was you acting like this
Girl, you gotta trust me when I tell you that ain't what it isI'm still standing where I always stood
Right here beside you like I told you I would
I'm here forever, if it's the last thing I doBaby, I'm in for better or worse
Even if it's hard, even if it hurts
I'm going the distance
And baby, I'm going with youMaybe it's that mountain of bills on the cedar chest
Maybe it's my boss man, maybe it's the I.R.S.
I don't know what it is, don't know how long it might last
But I know it ain't nothing, our love ain't gonna get me pastWell, I'm still standing where I always stood
Right here beside you like I told you I would
Well, I'm here forever, if it's the last thing I doBaby, I'm in for better or worse
Even if it's hard, even if it hurts
I'm going the distance
And baby, I'm going with youWell, I'm still standing where I always stood
Right here beside you like I told you I would
Well, I'm here forever, if it's the last thing I doBaby, I'm in for better or worse
Even if it's hard, even if it hurts
I'm going the distance
And baby, I'm going with youI'm going the distance
And baby, I'm going with you
