

I'm Gone

[Alison Krauss](#)

When you came to me
You said love could not erase
The ever present memory of another face

I tried to make you love me
How I could I be so blind
To think I'd be the one to change your mind

[Chorus]

And if I'm gone before you start
Well you can find me in your heart
Who can say if its right wrong
I've waited for you too long
And if I can't hold on
I'm Gone

When you came to me
I said love will find a way
For every heart that leaves another heart must stay

I guess you couldn't see
As the shadow's in the night
It seems the time for us just wasn't right

[Chorus]
