Language

Muldoon Manny

I don't know what they saying
went in just like I planned
fliest nigga on land
I am haha hope I don't land
hold up I don't know what you talking about
oh
I don't know what you're talking bout
i don't know bitch I don't know
I don't know what they saying
went as just like I planned
fliest nigga on land
I am haha hope I don't land
I don't know what they talking about
cause we don't speak the same language
I don't know what they talking about
cause we don't speak the same language
you ain't talking money
I don't know what you're saying
went as just like I planned
fliest nigga on land
I don't know what they talking about
cause we don't speak the same language
I don't know what they talking about
cause we don't speak the same language

Rule one
don't depend on a soul
get up and go get your own
make sure that you pray
watch who keep close to you
control your emotions
stay true to your dogs
stay true to your dogs
but rep with your family
especially your kids
don't stress out for little shit
cause life is too short
quit all that complaining
go buy you a porsche

at least you can drive bitch
out of your business
stop chasing them niggas
go after your goals
encourage your friends
remember who helped you
try not to be selfish for me
that's the artist
they say I was falling
should spend way more time with my daughters
but they love regardless
but then never need
I can't let it happen
I started with nothing
I worn in a lot
I broke a few hearts
I said I was sorry
but I got ball
I'll buy you a jersey
shit I got to eat
bitch bon appetit
yay

I don't know what they saying
went as just like I planned
fliest nigga on land
I am haha hope I don't land
I don't know what they talking about
cause we don't speak the same language
I don't know what they talking about
cause we don't speak the same language
you ain't talking money
I don't know what you're saying
went in just like I planned
fliest nigga on land
I don't know what they talking about
cause we don't speak the same language
I don't know what they talking about
cause we don't speak the same language

Don't lie to your brothers
my hand on the bible
how lot a judge
my city divided
shit don't get god slipping

behind enemy lies
free all my guys
lord sooner than later
I'm asking a favor
just do me this solid
them niggas is solid
I made a few dollars
invest in myself
I made me a boss
ain't shit you can tell me
I can't accept failure
ain't talking about money
I can't understand you
god is my witness
and even though witnesses
these niggas is hoes
they stay in they feelings
I stay to myself
Iâ€™m praying for wealth
I come from the East
We brown a week
My head on swivel
These niggas be blogging
I got some for em
My temper enormous
My ego is bigger
I know Iâ€™m that nigga
My city is together
More flyer than ever
Its roughly feathers

But hey

I don't know what they saying
went as just like I planned
fliest nigga on land
I am haha hope I don't land
I don't know what they talking about
cause we don't speak the same language
I don't know what they talking about
cause we don't speak the same language
you ain't talking money
I don't know what you're saying
went in just like I planned
fliest nigga on land

I don't know what they talking about
cause we don't speak the same language
I don't know what they talking about
cause we don't speak the same language
at all
