Coalesce (Synesthesia, Pt. II)

Jack Garratt

I hope to God I'll see you one more time
And feel your warmth embrace my fragiled mind
I hope you take my innocence, every night

Rebuilt it with time
But first I'll open up your

Mind
And coalesce with mine
Mine

I hope you need my safety and ...
Let every picture paint a thousand words
I hope you break my distance, like you have before

Rebuilt it with time
But first I'll open up your

Mind
And coalesce with mine
Mine
Mind
And coalesce with mine
Mine
Mine
