

# Kisses In the Moonlight

George Benson

Oh, what a night  
Now don't you feel like flying?  
Everything's right  
You can't blame me for trying  
Love, look up there the stars are all aligned  
Now don't you think it's time? Ho, ho, ho Closer to me  
I want to feel your breathing permanently  
'Cause darling I'm not leaving here  
Till I get what I've been waiting for  
Some twenty-five or more  
That's all I need Oh, kisses in the moonlight, sugar  
That would make this night complete  
There have got to be  
Ho! kisses in the moonlight, sugar  
Fly away with me, ho, ho, ho Most of our days  
We get so busy running  
Lost in a maze  
We got no time for fun and dreams  
Well, every now and then a dream is real  
And this is how it feels, hey, hey, hey For once in your life  
Forget about tomorrow  
Tonight is the night  
Our worries seems so far away  
You hold me in your arms so tenderly  
I only want a taste of your sweet, sweet, ooh Oh, kisses in the moonlight, sugar  
Well, that would make this night complete  
There have got to be  
Oh, kisses in the moonlight, sugar  
Fly away with me  
Oh, fly away with me Don't let this night end  
Right now in your arms  
Is where I need to be, please  
Oh, lady Kisses in the moonlight  
Do you know?  
Then you know  
That you know  
Oh yeah, yeah  
Ooh yeah, baby Oh, kisses in the moonlight, sugar  
That would make this night complete

There have got to be  
Oh, kisses in the moonlight, sugar  
Fly away with me Oh, kisses in the moonlight  
Kisses in the moonlight, oh, baby, ho  
Oh, kisses in the moonlight  
Oh, kisses in the moonlight  
Oh, kisses in the moonlight Oh, baby  
Kisses in the moonlight  
Kisses in the moonlight  
Kisses in the moonlight
