

# You're Still My Man

Whitney Houston

On the day that you left me  
You said, you had no regrets  
There's a bond between us  
That hasn't been broken yet And the feelings between us  
Will never disappear  
How can you be far away?  
When your spirit's here You're still my man, nothing can change it  
We still belong together  
You're still my man, nothing can change it  
Our love will last forever And the seasons of our love  
Will always change I know  
Maybe that's the reason  
You felt you had to go But soon you'll be missing me  
Darling, I know you well  
There's a magic we share together  
And no one can break that spell You're still my man, nothing can change it  
We still belong together  
You're still my man, nothing can change it  
Our love will last forever I'll wait for you  
The thought that keeps me going each day  
Is I believe you still love me  
I love you more than words can say You're still my man, nothing's gonna change it  
Don't you know, you oughta know, we belong together  
You're still my man and nothing can change it  
Oh, baby, oh, darling, you're in my heart forever 'Cause you're my man  
Without you  
They'd be no love at all You're still my man, nothing can change it  
Don't you know, you oughta know, we belong together  
Oh you're still my man, nothing can change it  
Oh, baby, oh, darling, you're in my heart forever You're still my man, nothing can change it  
I'm yours, you know you're mine, you're in my heart forever  
You're still my man, nothing can change it  
Don't you know, you oughta know, we belong together
