Over The Moon

Liv Kristine

I was on my knees
Crawling through the dry sahara
I was breaking down
Every wall standing in my wayAnd look what I found; the road to heavenI'm over the moon
Through featherly-light sky I fly
I'm over the moon
Since I found youCrossing boundaries
Between my old and new life
Search the open field
For a flower of my tasteAnd look what I found; the road to heavenI'm over the moon
Through featherly-light sky I fly
I'm over the moon
Since I found youBut I know
What can't tear me down
Makes me much stronger
So it's good for something
