

# Over The Moon

[Liv Kristine](#)

I was on my knees  
Crawling through the dry sahara  
I was breaking down  
Every wall standing in my way And look what I found; the road to heaven I'm over the moon  
Through featherly-light sky I fly  
I'm over the moon  
Since I found you Crossing boundaries  
Between my old and new life  
Search the open field  
For a flower of my taste And look what I found; the road to heaven I'm over the moon  
Through featherly-light sky I fly  
I'm over the moon  
Since I found you But I know  
What can't tear me down  
Makes me much stronger  
So it's good for something
