

Darkroom

Kingdom Come

Keeping cool inside
I walk the line
People crossing my Sine
I don't mindMen with a mind
Got a darkroom inside
The fool on the hill
Never wanting to killNow I can't go on, gotta change what's wrong, inside
Gonna blow the hood, making understood, my fight
Gonna jump the tide, coming back alive, who knows?
Having peace in mind, it's a long long time, agoThe room within, where I've done all my sins
Can't escape anymore, cannot find the doorHow I can't go on, gotta change whats wrong, inside
Gonna blow the hood, making understood, my fight
Gonna jump the tide, coming back alive, who knows?
Having peace in mind, it's a long long time, agoGonna jump the tide, oohhh
Gonna blow the hood, making understood, my fight
Having peace in mind, it's a long long time, ago
