Heart Falls Out

David Archuleta

Oooh ooh noo
I?m still here but I don?t feel the same
I wasn?t ready for the change
But you can?t control, what you don?t see coming
You?ve made plans, there?s no room for me
Withheld your honesty
Took a part of me when you took off runnin?
[Pre-chorus]I tried to hold myself together
But I?m out of my depth, ever since you left.
[Chorus]Is this how it feels when a heart falls out?
You?re missing a beat, so can?t live without it
Try to breath but your lungs shut down
When your heart falls out
Is this how it feels when a heart falls out?
Empty inside, but you?ve fallen down
Just tried to breath, but your lungs shut down
When your heart falls out (falls out)
Oh oh no
Heart falls out
Ooh no
I?m still here, knowing what I lost inside
Confided now my hands are tied
It?s a battle in my head and I don?t want it

[Pre-chorus]I tried to hold myself together
At times the feeling?s unknown, I?m sick of what I?ve become
Yeeah yeah
[Chorus]Is this how it feels when a heart falls out?
You?re missing a beat, so can?t live without it
Try to breath but your lungs shut down
When your heart falls out
Is this how it feels when a heart falls out?
Empty inside, but you?ve fallen down
Just tried to breath, but your lungs shut down
When your heart falls out (falls out)
Uuuh ooh oh uuuh oh
Uh oh
Uuh I?m gonna find my feet, carry back to me
Restore my heart beat

Oooh ooh
[Chorus 2x]Is this how it feels when a heart falls out?
You?re missing a beat, so can?t live without it
Try to breath but your lungs shut down
When your heart falls out
Is this how it feels when a heart falls out?
Empty inside, but you?ve fallen down
Just tried to breath, but your lungs shut down
When your heart falls out (falls out)
