Waiting For You

Mehdi, mehdi, mehdi

(Oh mehdi weâ€™re waiting for you) x4

1. Our lives are dark and our hearts are broken
Now is the time for your intervention
there are no choices left there is no option
there is no hope left you are the chosen
our souls are dying whilst we are still alive
how can we go on, how can we now survive
weâ€™re waiting for that, time when you will arrive
so that religion and faith can be revived
The worlds become false, come and make it true,
oh mehdi we re waiting for you

(Oh mehdi weâ€™re waiting for you) x4

2. The poor are dying their tears are flowing
They have lost everything their fears are growing
The world is standing by though it is knowing
The persecution that they are facing
Wherever we look there is just bloodshed
There is no love left not even a shred
Now all around the world, the evil has spread
Though hearts are beating, inside they are dead
Thereâ€™s no sincerity, the good are but a few,
oh mehdi weâ€™re waiting for you

(Oh mehdi weâ€™re waiting for you) x4

3. Weâ€™ve lost our way Like, a boat without a sail
The smallest winds make, this faith of ours sway
Our sins are countless, weâ€™re filled up with hate
There is no honesty, no love to convey
How can we say that for you weâ€™re ready
Weâ€™ve lost perspective of all reality
The essence of life weâ€™ve failed to see
Weâ€™re not content weâ€™ve succumbed to our greed

Our faith is losing out, what shall we now do,
oh mehdi we re waiting for you

(Oh mehdi weâ€™re waiting for you) x4

The times befalling, the lovers of Hussain
Are unprecedented, weâ€™re facing so much pain
So many massacres from place to place
The streets of Pakistan, the roads of Bahrain
The world is crying out for you to bring peace
Avenge the genocides, through your justice
And rid this universe of evil and sin
Allow us to be the ones within your midst
This world has lost love, is hurtful and cruel
Oh mehdi weâ€™re waiting for you,

(Oh mehdi weâ€™re waiting for you) x4

I think about you everyday
I sit alone, close my eyes and pray
How longâ€™s this gonna take Imam, How long do we have to wait?
Shias dying in Pakistan
Iraq and Afghanistan
Children in Syria and Bahrain
Being massacred day after day after day after day

Oh imam we need your reappearance
Weâ€™re crying for help maybe you canâ€™t hear us
I know inside that my soul ainâ€™t pure,
Iâ€™ve wronged myself, Iâ€™m trynâ€™a find a cure
One day I wanna be your soldier,
My heart keeps growing colder
Every time I get a step closer
Thereâ€™s another barrier,
I fall, I fall so I need you as the carrier

Where are you? We need your guidance
Your lovers are dying at the hands of tyrants
Soldiers bursting into their rooms pulling the trigger
Making all of our lives problems even bigger
Why? Because we love the Ahlulbayt
We follow their path regardless of our fate
We need your help! Its not insanity
Itâ€™s a plea from all of humanity

Youâ€™re gonna come down like a charm

Paradise in your palm
Standing arm in arm
With the purest hearts
Youâ€™ll bring about calm
Save our souls from harm
Thereâ€™ll be no more alarm
As the world will disarm

Because
This is the dream thatâ€™ll make me
God wonâ€™t forsake me
The devil wonâ€™t break me
His words wonâ€™t shake me
When you will awake me
Your light will save me
The evil will hate me
This world wonâ€™t take me

InshaAllah I will join your army, InshaAllah
My will is strong no one will harm me, InshaAllah
Oh Imam I will stand by your side and rise up to reveal the truth
Whether youâ€™re are the highest peaks or in the deepest valleys
You wonâ€™t need to find me because I will come looking for you
