

# Purpose Driven Life

## Melinda Watts

When your life can sing a song  
When your walk preaches a sermon  
And when you speak the angels begin to sing  
That's when your life has real meaning  
And you have a purpose driven life

When you seek to extend your hand  
To help your fellow man  
And when the world will pause to hear your song  
That's when your legacy continues  
That's when you know that God has used you  
And you have a purpose driven life

When you're walking in your purpose  
Connected to the divine  
That's when your life has real meaning  
You have a purpose driven life

Walk in your purpose, God has already predestined for you  
Walk in your purpose, He has a great work for you to do  
When the world can see, your destiny, attached to God's own hands,  
That's when you have a purpose driven life

Walk in your purpose, God has already predestined for you  
Walk in your purpose, He has a great work for you to do  
When the world can see that your destiny is attached to God's own hands  
That's when you know  
You have a purpose driven life

That's when you'll know  
You have a purpose driven life

That's when you know  
You have a purpose driven life

Walk in your purpose  
Walk in your, your purpose  
God gave you purpose  
Yes He did

So walk in your purpose

When the world can see your destiny attached to God's own hands  
That's when you'll know  
You have a purpose driven life
