

Sarah

Electric Guest

Back when I was home again
Too much time alone, thought of you often
One day I hope the wake will end
But will you still remember if your miles away
Miles away from here Remember summer
Remember night
Not even enough to think there will be no goodbye.
I want to see you
grown up, where have u been all this time Sarah, come back to what we could be
Sarah, one day we both will believe Back to the place we began
But will you still remember if your miles away
Miles away from here I'm never home, you're on my mind
I want to know you grown up
where have you been all this time Sarah, come back to what we could be
Sarah, one day we both will believe Oooo back
Oooo back Sarah, come back to what we could be
Sarah, one day we both will believe
