Eraserhead

Algernon

We're here to the rescue of a friend
A lost companion with a heart to mend
There's this girl with whom none compare
There's this girl
His castle of air

Live and learn to forget
They said
Live and learn
But erase her head

Nowadays you really should know better
Nothing's really changed since you've met her
Maybe it gave it a fine line chorus
But quite frankly you're starting to bore us

Live and learn to forget
They said
Live and learn
But erase her head
Learn to forget how to live instead
Give and yearn but erase her head
Eraserhead

Live and learn to forget
They said
Live and learn
But erase her head
Learn to forget how to live instead
Give and yearn but erase her head
