

I'll Never Be The Same

[Angela Winbush](#)

I love you more than you could ever know
Words don't come close to say that
what's down inside makes me close
No other touch feels like yours
Your my only cure baby
No other love means as much to me
This I can say for sure
Every time I think of the very first time that
We made love I know oh oh oh oh oh I will never be the same again
I will never be the same again
No no no You changed my ways
My thoughts and my attitude baby
Love was a game that I played before I met you boy
And I fight to keep your heart baby
With me at any cost (yeah)
I realize before you my whole world was lost
Everyday that I wake up pray that we never break up
Because I know oh oh oh oh oh (I will never) I will never be the same again no no
I will never be the same again You got the power to move me
(Move)
Every hour I need you to soothe me
(Soothe)
You changed me
(Changed)
Came into my life and rearranged me
(Rearranged) I will never be the same again
I will never be the same again
I will never be the same again
I will never be the same again, no, no
