

Switchblade

Incubus

I keep getting attacked by,
The girl in the black hat
The girl in the black hat I can't find any shade,
But I'll be sued as long as I got a switchblade I keep getting the eye from,
The girl in the thigh highs
The girl in the thigh highs Whose iris is of jade
And built to persuade
And they're swift like a switchblade Switchblade
Switchblade They're swift like a switchblade Switchblade Nobody wears it like you anymore,
Nobody wears it like you anymore Light like a feather,
Bright like a dying star Cut those together,
Girl that is what you are Wild eyes forever,
Built to punish and persuade I lied to get her
But all I got was a switchblade A Switchblade So just give me the facts,
Who's the girl in the black hat
The girl in the black hat I can't find any shade,
But I'll be swayed as long as I got a switchblade I think I'm getting her eyes,
On all American thighs
Her American thighs. She got her black hat,
And irises of jade
And I got a switchblade. Switchblade Yes, I've got a switchblade Nobody wears it like you anymore,
Nobody wears it like you anymore Light like a feather,
Bright like a dying star Cut those together,
Girl that is what you are Wild eyes forever,
Built to punish and persuade I lied to get her
But all I got was a switchblade A switchblade Nobody wears it like you anymore,
Nobody wears it like you I keep getting attacked by,
The girl in the black hat
The girl in the black hat I can't find any shade,
But I'll be swayed as long as I got a switchblade Switchblade Light like a feather,
Bright like a dying star Cut those together,
Girl that is what you are Wild eyes forever,
Built to punish and persuade I lied to get her
But all I got was a switchblade Yes, I got a switchblade Light like a feather,
Bright like a dying star Cut those together,
Girl that is what you are Wild eyes forever,
Built to punish and persuade I lied to get her
But all I got was a switchblade Yes, I got a switchblade...
