

# Forever

## Painted Palms

i've been watching the days bleed together  
there are so many things i don't remember  
feeling like i just can't hang on to myself  
oh my head feels like the weather i know sometimes you fall deep in your head  
wondering what you could be  
thinking about myself too much i can see that  
i don't know what to be i've been getting lost on my own time  
feels like i could do this forever  
sitting in a field of flowers all alone  
now it's waking up all around i know that sometimes you fall deep in your head  
wondering what you could be  
thinking about myself too much i can see that  
i don't know what to be
