

You Two

Chuck Berry

Let's throw a twilight cookout
We two, you two, no more
Way out somewhere in the country
Where we've never been beforeLet's throw it on a weekend
We two, you two, no more
And lounge away a holiday
Like we've never done beforeWe'll bring the rounds and some jazzy sound
To play by a cozy fire
You two roast wieners and we'll toast the buns
And we'll chow till the night grows nighterWe'll call for you on the weekend
We two, you two, no more
And ride out somewhere in the country air
Just a cozy clan of four
