

Top Of The World

Gotthard

Hello, hello, hello, is there anybody listening in the crowd?
Don't think twice, ain't gonna waste no more time
The clock's running and I see the end of the line
It's calling, so watch me leave 'em all behind You can turn me loose, you can call my name
I'll keep climbing higher
I will touch the sky, as the eagle flies
On my way to be there, right on top of the world Hello, hello, now I'm rolling like a freight train down the
track
Don't look back, don't try to get in my way
Oh, I'm coming, well, I've got my eye on the flame
And I'm running 'cause I was born to play the game You can turn me loose, you can call my name
I'll keep climbing higher
I will touch the sky, as the eagle flies
On my way to be there, right on top of the world, oh It's not an illusion
This is my one desire
There's no confusion
Well, I can set the world on fire You can turn me loose, you can call my name
I'll keep climbing higher
I will touch the sky, as the eagle flies
On my way to be there, right on top of the world, oh I'm on fire
On my way to be there, right on top of the world
Of the world, right on top of the world
Of the world, right on top of the world
On my way to be there, to be there, yeah
