

Serious

Katchafire

May I pick a lilly from your daisies
May I see anybody from your way
May I be there when you want your sunrise
May I take a ring and put it in your hand
Serious
We've got to get back on that wagon keep the cool on
Serious
Don't let your feet drag on rise up don't let the world take it
Love your way
love you to
love your all
loving you
Even when you don't let me come right up
Hang on and let me take right up
Love your name
cause you do
anything
for the truth
Even when you're ruling me King Title
Have it when me ring tied up
Any way I need you
Any me any you
Even when you're running me pigstye
How far from me quick dry up
Loving me
cause you do
Anything
For the truth
One thing you doing me King title
yes I have it when me ring tied up
