

Become Someone Else's

Jens Lekman

Jennifer called to me about her latest admirer
Said someone should make a pamphlet called
So you think youre in love with Jennifer
There were guys with steady girlfriends
Panic in that were I

Jenny please, lets never become like that Become like that, become like that
Become like that, become like that Like a sinking rock tied to the lake up a person
Id rather be a flack storm skipping across the ocean

When the Melbourne summer is endless
And the warm wind leaves you helpless

Lifes too good to become someone elses Become someone elses, become someone elses
Become someone elses, become someone. Else than this hopeless young fool

What Tracy sang about me was true

It all depends what glass youre looking through, maybe

But all I know bout love I learned from you Tracy Thats her sucking on cherries dangling from the trees

Hasnt anyone told you what you thanks are for? Little buddies

That lonesome feeling and what it tells us

Sleeping on my arm til it become someone elses

Sleeping on my arm til it become someone elses Become someone elses, become someone elses

Become someone elses, become someone elses

Become someone elses, become someone elses

Become someone elses, become someone elses
