

# Living For Heaven

## Canton Junction

It's been fifty years of fire and thunder  
And everywhere he's gone he's preached the cross  
Now the finish line is getting closer  
But he still has that passion for the lost  
When he speaks these days I hear a longing  
For something in the future not the past  
The conversation's all about a savior  
Cause if his heart is set on what will last

He's living for heaven, whatever it takes  
He's laid down his life on the alter of grace  
He's living like Jesus will come any day  
Making a difference with all he's been given  
Living for heaven

You won't hear him talk of crowns or trophies  
That's not the reason for the race he's run  
But the hope that one day soon the sound of Jesus saying  
My child, well done

He's living for heaven, whatever it takes  
He's laid down his life on the alter of grace  
He's living like Jesus will come any day  
Making a difference with all he's been given  
Living for heaven

All I want is testimony even as I'm nearing home  
All that matters here is Jesus  
And I want the world to know

I'm living for heaven, whatever it takes  
I've laid down my life on the alter of grace  
Living like Jesus will come back today  
I'm making a difference with all I've been given  
I'm living for heaven

Oh, I'm living like Jesus will come back today  
I'm making a difference with all I've been given  
I'm living for heaven
