

Lovely Tonight

[Joshua Radin](#)

I need you to know this won't be broken
And all that we said will not be lost into the dawn
And you would be the last thing I saw coming
I'm still surprised You are lovely tonight
You, dear, will guide me into the morning light
You are lovely tonight

Lay here beside me - I see the rest of my life with you
Alone we are fine; but when we're two, we are eternal
The moons have aligned our separate lives; here become one
And you would be the last thing I saw coming
I'm still surprised You are lovely tonight
You, dear, will guide me into the morning light
You are lovely tonight

Lay here beside me - I see the rest of my life with you
All my life I've lived alone without you
All this time I couldn't find a way to belong
And you are lovely tonight
You, dear, will guide me into the morning light
You are lovely tonight
Lay here beside me - I see the rest of my life with you
