

Born Above (Parody of "Born to Run")

ApologetiX

Born Above - (Born to Run) In the day he went about on the streets doin' run of the mill Pharisee things
At night he met with his master the lord and said "Show us what you mean"
I'm a sage but you're highly divine
Your wisdom's respected
You're second to none top of the line Oh, Jesus said if you're born from above you can give that
You can go around magic gotta get it while you're young
But you can't find much, baby 'til you're born above That's what he told them Then he said to them you must be
born again if you want god to increase your vision
Just like the wind blows just where it wills, the same thing happens to Christians
You never see it make its path
But somehow you know - baby whenever it blows past Oh, you walk with me out on the water
'Cause baby I can prepare you to know the Father if you wanna know here's the deal
You must become a little child if you wanna know that God is real Oh let me show you John 3:3 yeah Beyond this
planet heaven's got a home seems like it's really far
The world's unaware but it's really near and you don't have to look so hard
The amusing part is it's there in your heart yet somehow out of reach in your midst
You'd either die with your dignity or you'd wait to die an everlasting death huh One, two, three, four The
highway's jammed with folks who's experience is gonna get them burned alive
Well everybody was on the road to God but there's no way there but mine
To get there Nicky we can live at this address
I'll scrub you of all the badness in your soul Oh, someday when you're born again
You're gonna get to that place you really wanna go
And you'll walk with the Son But 'til then can't find much
Baby 'til you're born above
Come on honey
Can't find much
Baby 'til you're born above
Come on Nicky
Can't find much
Baby 'til you're born above Woah
Hmm
Wha-ah-o-ooo
Wha-ah-ah-ah-ooo
Hmm
Whoa
Whoa
Wha-ah-ah-ah-ooo
