Someone Like You

Jacquees

Somebody tell me what she tripping for?
What am I doing, what am I doing?
I?ll get there leaving
Cause what we going through is foolish
I mean what am I doing
To make her act this way
I mean I know sometimes
I mean I know sometimes
She get a little carried away
She make me wanna
Drive somewhere then swerve and crash
I wonder will we ever last
She make me wanna
Leave her running on the street
Sometimes I wish this wasn?t me
She make me wanna
Pick a girl right out the crowd
Cause maybe that would make me smile
But I need someone like you
Need someone like you, need someone like you
Why do I need someone like you?
I don?t need no one like you?
I know I need someone like you,
Need someone like you, need someone like you
There is no girl like you, I keep thinking to myself
Wanna put my hands around you
It might be bad for my health
Cuz we gone fuss, we gone fight
Cause we don?t trust and that ain?t right
And you?re my wifey, you?re my type
And I?ll be there to the sunrise
She make me wanna
Drive somewhere then swerve and crash
I wonder will we ever last

She make me wanna
Leave her running on the street
Sometimes I wish this wasn?t me
She make me wanna

Pick a girl right out the crowd
Cause maybe that would make me smile
But I need someone like you
Need someone like you, need someone like you
Why do I need someone like you?
I don?t need no one like you?
I know I need someone like you,
Need someone like you, need someone like you
I know I need somebody that will ride
Need somebody by my side
But I?m sick of all the arguing all of the time
Sometimes I wanna kick it and ride with my guys
I know you need somebody riding with you
But I can?t do everything you want me to
Sometimes I wanna be with you till the sunrise
But when you go to tripping girl I change my mind
She make me wanna
Drive somewhere then swerve and crash
I wonder will we ever last
She make me wanna
Leave her running on the street
Sometimes I wish this wasn?t me
She make me wanna
Pick a girl right out the crowd
Cause maybe that would make me smile
But I need someone like you
Need someone like you, need someone like you
Why do I need someone like you?
I don?t need no one like you?
I know I need someone like you,
Need someone like you, need someone like you.
