

# If I Were A Weapon

[Suzanne Vega](#)

Ooh, if I were a weapon  
You said I'd be a gun  
Lethal at close range, I guess  
With silencer and stun But I feel more like a needle  
Always pulling on the thread  
Always making the same point again  
And wondering if you heard what I just said If you were a weapon  
A hammer's what you'd be  
Blunt and heavy at the end  
And coming down on me But I've concealed a weapon  
In a pocket knife attack  
All folded up inside until you see the shine  
And then you'll want it back Ooh, if I were a weapon  
You said I'd be a gun  
Lethal at close range I guess  
With silencer and stun Well, if I am that weapon  
I am pointing now at you  
So just put down the hostage and we'll  
Talk it down until we see this through
