

Christmas Night

Justin Jones

(Verse)

You would think after all these years
You would get it but where not there
Never bring me a good day
You won't take this holiday
Always put me in the clouds
Stormy weather all around
And I always hold you down

When I know that I can do better(Pre-Chorus)

Holidays are supposed to bring us closer

But now I realize with me and you there's no hope(Chorus)

I lost my love on Christmas night (yea)

Oh yea that hurts at the same time

Bout to be a new year, new state of mind

But it's like hell right now

`Cause you're not around on Christmas night(Verse)

You would thin after all these fights

We would finally get it right

We were livin a hell of a life

Our love had a different side

We had it (yea)

We lost it (yea)

Went back to it

We started

Damn, it always feels like rain

And you'll never be the same(Pre-Chorus)

Holidays are supposed to bring us closer

But now I realize with you and me there's no hope(Chorus)

I lost my love on Christmas night (yea)

Oh yea that hurts at the same time

Bout to be a new year, new state of mind

But it's like hell right now

`Cause you're not around on Christmas night(Bridge)

By the fire while the snow falls down the side

I should be happy but I just wanna cry

`Cause those gifts that you bought me

Are still under the tree

I should tear `em up

Just like you did to me(Chorus)

I lost my love on Christmas night (on Christmas night)
Oh yea that hurts at the same time (same time)
Bout to be a new year, new state of mind
But it's like hell right now
'Cause you're not around on Christmas night
