

# Kick Start

[Lisa Loeb](#)

We need a kick start  
We need a quick solution  
We need a next step  
If were really going  
If were really going We sit on our couch  
While we watch our TV  
And the phone doesnt ring  
And its perfect To be here playing house  
Is no comfort to me  
Its just more of the same  
Again and again and again We need a kick start  
We need a quick solution  
We need a next step  
If were really going  
If were really going Trying so hard to dig ourselves out  
'Cause were stuck and were scared  
And were thinking Things have to change  
Its the thoughts that dont count  
Can something be done?  
Dont let this decision drag on We need a kick start  
We need a quick solution  
We need a next step  
If were really going  
If were really going We need a big push  
To reach the right conclusion  
So we can get there  
If were really going  
If were really going  
Lets go We need a quick solution  
We need a next step  
To reach the right conclusion  
We need a kick start  
We need a kick start
