

You're Not Free

Frazey Ford

You've been hiding in the corners
You've been living all your life
You gotta get out to the country
And leave your troubled mind'cause you're not free
You're not free You left your baby and guessing
Don't know when you'll be back
You can't hold down a job
You can't even pay your rent'cause you're not free
You're not free You gonna go down to the water
And lay down in the tide
You'll lay your body down
And cry and cry and cry Till you're free
Till you're free
