

# Out With A Bang

David Lee Murphy

I just dropped five dollars in a jukebox, baby  
Ain't a soul on the ol' dance floor  
If you're gonna run with the big dogs hon  
You gotta get off the porch You can sit there all night uptight, honey  
But a good time's something I know  
You gotta get the jump while the night is young  
And there's just one way to go Out with a bang kickin' up dust  
Honey, tonight I'm all wound up  
Over the fence and off of my chain  
Honey, tonight I'm hurricane  
Out with a bang You know some folks say, "I'll never see heaven  
If I don't change the road I'm on"  
But me I know just where I'm goin'  
I don't have to be told The say livin' fast just won't last  
But that don't bother me  
'Cause when it comes my time to go  
I won't go easily Out with a bang kickin' up dust  
Honey, tonight I'm all wound up  
Over the fence and off of my chain  
Honey, tonight I'm hurricane  
Out with a bang Everybody wants good time  
We all have the right  
So if you're comin' with me now, darlin'  
You better hold on tight
