

Path of Sin

Belphegor

Again and again and again
You bring me to ecstasy
You have died but I don't care
Burial place is not your true relief
Fistfucks in your backdoor hole
Necropenetrating lust takes command
Path of sin - sin
Create the sin - sin
In darknes we'll always be together
Forever your body belongs to me
Wrapped in pleasure we will burn
In eternity we shall be reborn
Path of sin - sin
Create the sin - sin
Die Sonne schied noch ehe es Abend wurde
Tanzwut und Totengesnge
Der Sabbath des Blutes - des Blutes
(This hellish hymn is dedicated / Written to my dark
love.....Burn!)
