Life Without You

James Ryan

How could I ever live without you
Takes so much to live away
And if I saw your face around me
You would take my breath away
Whoa I love the way you talk
Cuz I love the things you say
And if I saw your face around me
You would take my breath away
And if you ever have to go
I just want you to know
That I love you so

How could I ever live without you
It takes too much to live away
You are my life You are my love
You know you've been sent from above
You should know you're in my heart
It's where you've been right from the start
So how can I ever live without you
Takes too much to live away
And if I saw your face around me
You would take my breath away
