

# Slow Rollin'

## Lady Antebellum

Everybody's got addictions, for me its gotta be you  
So slip into something that don't take long  
To slip in and bring me those baby blues,  
The El Dorado shined up, got a little extra cash  
And a quarter tank of premium  
Let's see how long it lastsBaby jump in my Cadillac  
Slide in the middle or climb in the back  
We can dance all over the FM dial  
Sweet home country, Destiny's Child  
Light turns red, light turns green  
Sneak a little something in between  
Steering wheel's steady when you're ready girlWe can put a new spin on these wheels  
Leanin' to an old school vinyl groove  
Talkin' 'bout how damn good it feels  
Street lights glowing,  
Slow rollin' this town with youI can already hear you singing  
I can already see your smile  
Route forty-four leanin' on the door  
Kick back cruisin' down Dinah Shore,  
Right passed the Dollar General  
Down to the end of the strip  
Make a "U"-ey, hang a lou-ie  
Feel that automatic shiftBaby jump in my Cadillac  
Slide in the middle or climb in the back  
We can dance all over the FM dial  
Sweet home country, Destiny's Child  
Light turns red and light turns green  
Sneak a little something in between  
Steerin' wheel's steady when you're ready girlWe can put a new spin on these wheels  
Leanin' to an old school vinyl groove  
Talkin' 'bout how damn good it feels  
Street lights glowin',  
Slow rollin' this town with youBaby jump in my Cadillac  
Slide in the middle or climb in the back  
Steerin' wheel's steady when you're ready girlWe'll put a new spin on these wheels  
Leanin' to an old school vinyl groove  
Talkin' 'bout how damn good it feels  
Street lights glowin',  
Slow rollin' this town with youBaby jump in my Cadillac

Slide in the middle or climb in the back  
We can dance all over the FM dial  
Sweet home country, Destiny's Child  
Light turns red, light turns green  
Sneak a little something in between  
Steerin' wheels's steady when you're ready girlRollin' this town with you
