

# Honestly

## Lil Peep

[Pre-Hook]

Do you remember when we were both sixteen?  
You had that shallow heart and I had those big dreams  
And I'd do anything that you would ask from me[Hook]

I would blow my brains out just for you

And honestly to tell you the truth

I'd still blow my brains out just for you[Verse]

Do you remember when you didn't care 'bout me?  
Now I'm your everything and I've got you on your knees

I got this little problem - I might make you bleed

"So what's the problem?" - she said

"Baby, make me scream!"

[Hook]

I would blow my brains out just for you

And honestly to tell you the truth

I'd still blow my brains out just for you[Pre-Hook]

Do you remember when we were both sixteen?  
You had that shallow heart and I had those big dreams  
And I'd do anything that you would ask from me

[Hook]

I would blow my brains out just for you

And honestly to tell you the truth

I'd still blow my brains out just for you
