

God of the Mind

Disturbed

Get in, get in, get in, get into now
Get in, get into, come take over me
Get in, get in, get in, get into now
Get in, get into, come take over meGet in, get in, get in, get into now
Get in, get into, come take over me
Get in, get in, get in, get into now
Get on, get into like meTime, not having an easy time
Never gonna have an easy time
Given the run around to me
I can feel it coming around againTime, a changing, a wasting
Come and get up in my face again, yes
Time, given the run around to me
And Im not having an easy timeNever having an easy
You know this time, it has never gone easy
Time, never having an easy
Youll never meet another like meGet in, get into like me, like me
Get in, get into like me, like me
Get in, get into like to me, like me
Get into like me, likeTime, not having an easy time
Never gonna have an easy time
Given the run around to me
I can feel it coming around againTime, a changing a wasting
Come and get up in my face again, yes
Time, given the run around to me
And Im not having an easy timeNever having an easy
You know this time, it has never gone easy
Time, never having an easy
Youll never meet another like meGet in, get into like me, like me
Get in, get into like me, like me
Get in, get into like to me, like me
Get into like me, likeGet ready, time never gonna die
Never gonna give into me
You want a deity like me, you want a God
But youre never gonna give into me
Want a deity like meTime never gonna die
Never gonna give into me
You want a deity like me, you want a God
But youre never gonna give into me
Want a deity like meTime, get it, get it

Time is just another God of the mind
Time, get it get it
Time is just another God of the mindTime, never having an easy
You know this time it has never gone easy
Time, never having an easy
You're never gonna meet another like me
