Heaven (Interlude)

DuÃ©ttÃ©

Don't you know that heaven's watching you (this is one for you heaven)
Well it's watching you you (thank you for making me happy)
Don't you know that heaven's watching you (thanks for making me smile?)
Well it's watching you you (thanks for making me know what love is)
Don't you know that heaven's watching you (fa real)
Don't you know that
I know when you look at me
It aint nothing but love you see
Cause baby when I look at you
I feel the same way too
You turn all my gray skies blue
And all the rain that used to fall

Was just a shower for the sun to shine
There is a reason why you're in my life
And you're all mine
And I can say it a thousand times
Don't you know that heaven's watching you
Well it's watching you you
Don't you know that heaven's watching you
Well it's watching you you
Don't you know that heaven's watching you
Well it's watching you you
Don't you know that
