Paralysed

Splitknuckle

You asked if you could stay the night
I could see right along that we could get it on I said yeah

Gonna spin my wheel's all over this town
If I catch you with your trousers down
The stories you heard they're gonna be confirmed
You won't believe your eyes
'Cause you'll be paralyses
Mechanized
Sterilized
You'll be paralyzed

Behind my cheek just a little mystique I said yeah
When I call you up at home you better be alone Isaid yeah
And I might only need you once a week
I get my kicks from magazines
The stories you heard they're gonna be confirmed
You won't believe your eyes
'Cause you'll be paralyzed
Mechanized
Sterilized
You'll be paralyzed

You asked if you could stay the night
And just to be polite I said yeah
I could see right along that we could get it on I said yeah

Gonna spin my wheel's all over this town
If I catch you with your trousers down
The stories you heard they're gonna be confirmed
You won't believe your eyes
"cause you'll be paralyzed
Mechanized
Sterilized
You'll be paralyzed
