Who's Fooling Who?

Ufo

You said that you're home in bed, asleep
I saw you with him walking down the street
You [Incomprehensible] no one telling on your tales
Just like a hound dog, I've been hot on your trail
Tell me who, who, who's fooling whom?
Tell me who, who, who's fooling whom?
I followed you, baby, when you walked into his place
I wanted to stop you but the door slammed in my face
The next day I saw you and asked you where you've been
You said you went out with your mama and a very, very good friend
Tell me who, who, who's fooling whom?
Tell me who, who, who's fooling whom?
Last Saturday evening you stayed out all night long
You said with your best friend doing nothing wrong
I knew you were lying 'cause any fool could see
You couldn't have been with her when she spent the night with me
Tell me who, who, who's fooling whom?
Tell me who, who, who's fooling whom?
Tell me who, who, who's fooling whom?
Tell me who, who
