All We Need

Patrice Rushen

Seems like a good time
To tell you my point of view
Just look around
And you'll know what's trueAll we need to do is love one another
What we need to do is care for each other
All we need to do is love one another
All we need, all we need, all we need is
LooooovveThe more comes along
Got to give it a try
No, you can't, you can't stop
The light's true designAll we need to do is love one another
What we need to do is care for each other
All we need to do is love one another
All we need, all we need, all we need is
LooooovveAll we need
All we needLove will find you someway
You just keep your heart open today
Don't let the love get away
What we're trying to sayAll we need to do is love one another
What we need to do is care for each other
All we need to do is love one another
All we need, all we need, all we need is
LooooovveAll we need
All we need
All we need
All we needThere's nothing in our way
But the space and the time
Let's live in love and harmony
'Cause that's the real design... All we needAll we need to do is love one another
What we need to do is care for each other
All we need to do is love one another
All we need, all we need, all we need is
Loooooovve(repeat chorus twice)Love will find you someway
You just keep your heart open today
Don't let the love get way
What we're trying to say...isAll we need to do is love one another
What we need to do is care for each other
All we need to do is love one another
All we need, all we need, all we need

Is looooovveAll we need
All we need
All we need
All we need
