

All We Need

Patrice Rushen

Seems like a good time
To tell you my point of view
Just look around
And you'll know what's true All we need to do is love one another
What we need to do is care for each other
All we need to do is love one another
All we need, all we need, all we need is
Looooovve The more comes along
Got to give it a try
No, you can't, you can't stop
The light's true design All we need to do is love one another
What we need to do is care for each other
All we need to do is love one another
All we need, all we need, all we need is
Looooovve All we need
All we need Love will find you someday
You just keep your heart open today
Don't let the love get away
What we're trying to say All we need to do is love one another
What we need to do is care for each other
All we need to do is love one another
All we need, all we need, all we need is
Looooovve All we need
All we need
All we need
All we need There's nothing in our way
But the space and the time
Let's live in love and harmony
'Cause that's the real design... All we need All we need to do is love one another
What we need to do is care for each other
All we need to do is love one another
All we need, all we need, all we need is
Looooovve (repeat chorus twice) Love will find you someday
You just keep your heart open today
Don't let the love get way
What we're trying to say... is All we need to do is love one another
What we need to do is care for each other
All we need to do is love one another
All we need, all we need, all we need

Is loooooovveAll we need

All we need

All we need

All we need
