

In Your Eyes

Tribal Seeds

In your eyes you get me hypnotized
In your smile makes me stay awhile
In your touch, no I can't ask for much more
In your laughter has a sweet sensation after

Are you ready to receive I loving
Are you ready to receive affection
So long I've been waiting to give this to you
And now on I will make sure you know it's true
Cuz I won't hesitate for it to be too late
So I must make a stand, yeah I must take your hand
So come around don't hold me down
You're shooting me down
Come around don't hold me down
You're shooting me down
