

# Trouble

## Hey Marseilles

Getting off at the old stop  
The plan that I helped you drop got me off  
Meet the chill and the bitter wind  
If the one that I left at home will let me in  
I've been away, been away What good is love or trust  
If you never get in trouble  
You keep me safe enough  
It's so hard to recover  
You got me tied to impress  
With the pain and the press of death come a test  
You wanna love like we're all safe  
It's been that way  
I got away What good is love or trust  
If you never get in trouble  
You keep me safe enough  
It's so hard to recover  
What good is love or trust  
If you never get in trouble  
You keep me safe enough  
It's so hard to recover
